Diodes Incorporated (Nasdaq: DIOD) a Standard and Poor's SmallCap 600 and Russell 3000 Index company, is a leading global manufacturer and supplier of high-quality application specific standard products within the broad discrete, logic, analog and mixed-signal semiconductor markets. Diodes serves the consumer electronics, computing, communications, industrial, and automotive markets. Diodes' products include diodes, rectifiers, transistors, MOSFETs, protection devices, function-specific arrays, single gate logic, amplifiers and comparators, Hall-effect and temperature sensors, power management devices, including LED drivers, AC-DC converters and controllers, DC-DC switching and linear voltage regulators, and voltage references along with special function devices, such as USB power switches, load switches, voltage supervisors, and motor controllers.

Corporate Overview and History

Diodes Incorporated was formed in 1959 as a regional semiconductor trading company, and in the early 1990s, it began the transformation into a fully integrated manufacturing and distribution company. In 1991, Lite-On Semiconductor Corporation (LSC) made a strategic investment in Diodes and set Diodes on a path of aggressive growth. In 1996, Diodes began to build its manufacturing capacity in China and established a state-of-the-art ISO-9002 recognized facility. In December 2000, Diodes acquired FabTech, Inc., a United States based silicon wafer foundry. As part of its standard analog strategy, Diodes in early 2006 completed the acquisition of Anachip Corp., a Taiwanese fabless analog IC company, and as part of its discrete strategy in late 2006, the Company acquired APD Semiconductor, Inc., a United States based fabless discrete semiconductor company. In 2008, Diodes acquired Zetex plc, a United Kingdom based leading provider of discrete and high performance analog semiconductor products for signal processing and power management. In 2013, the Company acquired BCD Semiconductor, a leading analog integrated device manufacturer based in China specializing in the design, manufacture and sale of power management integrated circuits. In November 2015, Diodes acquired Pericom Semiconductor.

Global Profile

Diodes' corporate headquarters and Americas' sales office are located in Plano, Texas and Milpitas, California. Design, marketing, and engineering centers are located in Plano; Milpitas, California; Taipei, Taiwan; Taoyuan City, Taiwan; Zhubei City, Taiwan; Manchester, England; and Neuhaus, Germany. Diodes' wafer fabrication facilities are located in Kansas City, Missouri and Manchester, with an additional facility located in Shanghai, China. Diodes has assembly and test facilities located in Shanghai, Jinan, Chengdu, and Yangzhou, China, as well as in Hong Kong, Neuhaus and in Taipei. Additional engineering, sales, warehouse, and logistics offices are located in Taipei; Hong Kong; Manchester; Shanghai; Shenzhen, China; Seongnam-si, South Korea; and Munich, Germany, with support offices throughout the world.

Business Objective

Diodes' strategic objective is to consistently achieve above-market profitable growth, utilizing innovative and cost-effective packaging technology, suited for high volume, high growth markets by leveraging process expertise and design excellence to deliver high quality semiconductor products. The Company has repeatedly proven its ability to exercise both financial and operational discipline when confronted with changing market conditions, allowing it to effectively manage downside risks while preparing to resume its primary objective of achieving sustainable profitable growth. Despite the highly cyclical nature of the semiconductor sector, Diodes has built an enviable track record of delivering profitability for 25 consecutive years.

Financial Strength

Diodes is committed to profitable growth and generating positive cash flow. The Company reported quarterly revenue of \$264.2 million in the second quarter of 2017. As of June 30, 2017 Diodes had approximately \$283 million in cash and short-term investments, \$826 million in shareholders' equity, and \$541 million in working capital.

Quarterly Revenue (\$ Millions)

Quarterly Gross Profit (\$ Millions)

Business Risks and Forward-Looking Statements

†This document contains non-GAAP measures. Please see the Company's press release on August 8, 2017 titled "Diodes Incorporated Reports Second Quarter Financial Results" for detailed information related to risks and uncertainties, non-GAAP measures, and a reconciliation of GAAP net income (loss) to non-GAAP net income (loss).

Broad Market Leading Customer Base

Diodes serves over 400 direct customers worldwide, including both original equipment manufacturers (“OEM”) and electronic manufacturing services (“EMS”) providers. For the full year ended 2016, OEM and EMS customers together accounted for approximately 35% of net sales, while around 130 global distributors accounted for approximately 65% of net sales to over 50,000 potential indirect customers. Diodes’ direct and indirect customers include industry leaders such as:

Efficient Manufacturing + Superior Processes

Economies of Scale: Loading Percentage in Shanghai – packaging capacity approximately 30 billion units

End Market Diversification

In 2016, Diodes’ product line of over 20,000 products resulted in the shipment of approximately 41 billion units. The Company’s product portfolio addresses the design needs of many advanced electronic devices, including high-volume consumer devices such as digital audio players, notebook computers, flat-panel displays, mobile handsets, digital cameras, set-top boxes and LEDs. Broadly speaking, the diverse set of end-uses can be divided between consumer electronics, computing, industrial, communications and automotive electronics applications. During the second quarter of 2017, consumer electronics, computing and communications accounted for approximately 68% of revenue.

End Markets (2Q '17)

End Product Applications

- Consumer** - Digital audio players & cameras, set-top boxes, LCD & LED TV’s, game consoles, portable GPS
26%
- Communications** - Mobile handsets, smartphones, IP in gateways, routers, switches, hubs, fiber optics
24%
- Computing** - Notebooks, tablets, LCD monitors, PDAs, printers
18%
- Industrial** - Lighting, power supplies, DC-DC conversion, security systems, motor controls, DC fans, proximity sensors, solenoid & relay driving
25%
- Automotive** - Comfort controls, lighting, audio/video players, GPS navigation, satellite radios, electronics
7%
